# Frameset UK Flat panels are easy to use, foldable stage flats that weigh around 11 Lbs and go up/fold down in under a minute.

Replacing cumbersome wooden flats with a flexible, easy to use, Panel sizes up to 13' tall and up to 1.5m wide with lycra cover or 7.5' wide with printed cover.

- Great return on investment – the frames will last 30 years +
- Can be used with printed covers or lycra covers (59 colours available)
- The lycra covers are reversible – so effectively two flat panels for the price of one.
- Very little storage / transportation space taken up
- Bespoke sizes available
- No more lugging wooden flats up and down stairs
- No more damaging flats in vans (as you open them up and take them down on site)
- Extendable – giving even more flexibility
- Can be easily joined together to form a wall of any length

# The Panels come in 3 cover options:

## Reversible Lycra covers:

- The lycra covers go round the frame like a bedsheet – they are reversible and come in a choice of 59 different colours
- The material's flexibility mean they can fit multiple sizes of frames
- Fire retardant and dry cleanable

## Printed covers:

- Printed covers with any design you need
- 1 minute set up time
- Fantastic quality print

## Projection screen covers:

- Work like the printed covers, but with front projection screen material for a perfect projection

# Euroset

complete stage set in a box

- Available in 8' and 10' screen versions
- 16:9, Front or Rear Projection
- Choice of 59 panel colours
- All comes in one box that fits in a car
- Very easy to use
- 10 minute set up time
- Designed and manufactured in the UK
- Now Available in the USA

# Frameset Projection Screens

**Frameset UK's hugely flexible projection screen system allows users to change the size of the required screen from one event to the next without buying multiple screens.**

Starting with four standard corners you use different size horizontal and vertical pieces to create the projection screen size you require.

Available in rear or front projection – up to 16' / 5m wide. Available in 16:9 or 4:3 and easy to change between the two.

The whole system then folds down for transportation / storage.

Our standard projection screen set includes a flat panel underscreen, legs and protective bags for all parts and bracing.

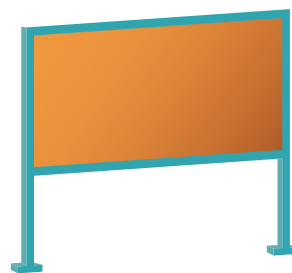

The system is designed to fit perfectly with our flat panels – giving you flexible, fantastic looking stage sets that go up and down in minutes.

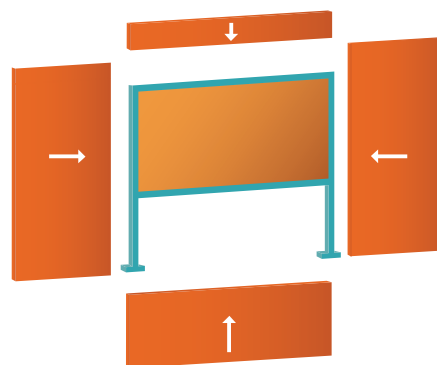

# Fast Around

We also offer a system that works with your existing screens – which we call the “Fast Around”. Clamp our panels together to create your desired aperture – and then push your screen up behind.

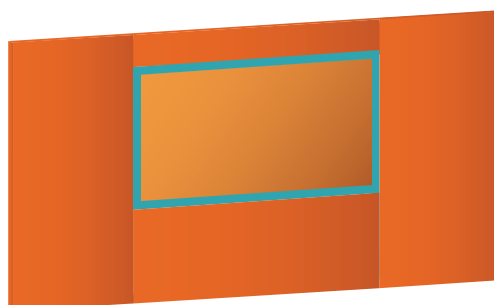

Bespoke panels to create any size aperture you require, and with our panel extenders, you can create multiple apertures without having to purchase multiple frames.

Use your existing Projection Screen

Put your frames up and clamp together

Create virtually any aperture in under 10 minutes

Expressive Structures offers a full stage set design service, to help turn your ideas into a stunning completed set.

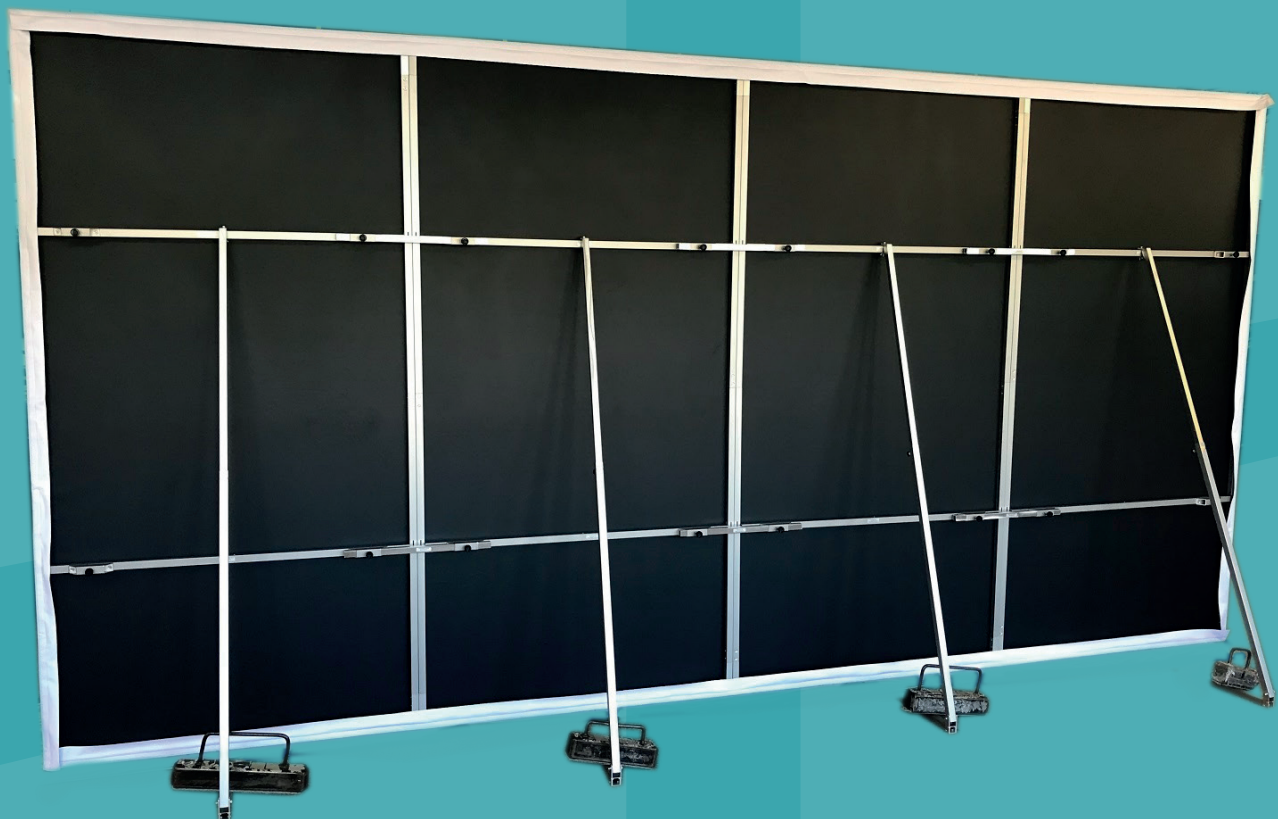

We can incorporate our projection screen system – using one, two or more screens with flat panels and our range of accessories to create sets that will excite and impress your clients – or use your existing screens.

**Our sets are  
available  
for rental or  
purchase.**

# Printed Backdrops

Join multiple frames together behind one print, for seamless backdrops up to 13' tall and 49' wide.

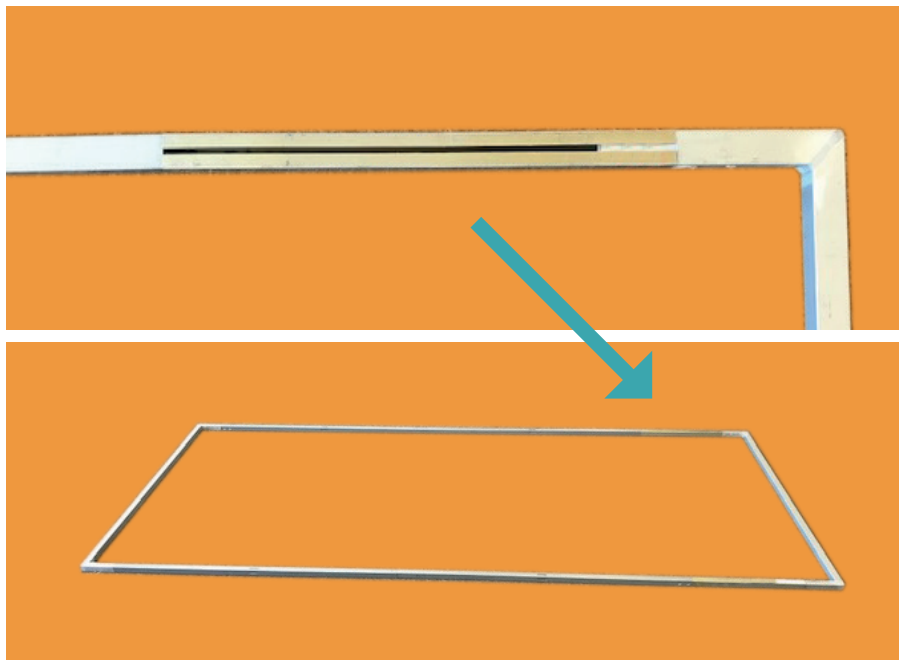

Quick turnarounds on printing – and high quality finish.

# Accessories

## Panel extenders

Simple panel extenders slot over the bungy cord to change the size of the flat panel frames, quickly, easily and cost-effectively.

## Crew Masking/ Table Top surrounds

Using our flat panel system you can create table surrounds as well as crew masking surround, to hide whatever your need it to.

We have standard sizes, but we can also make any height/length you need, as all of our products are manufactured in house.

## Lecterns

Available with different shaped frontage – with plain or graphic covers. Our lecterns come with 3 shelves and fit together in 2 minutes.

## Sails

Add style and dimension to your set, using our unique Sails – available with curved or straight frames.

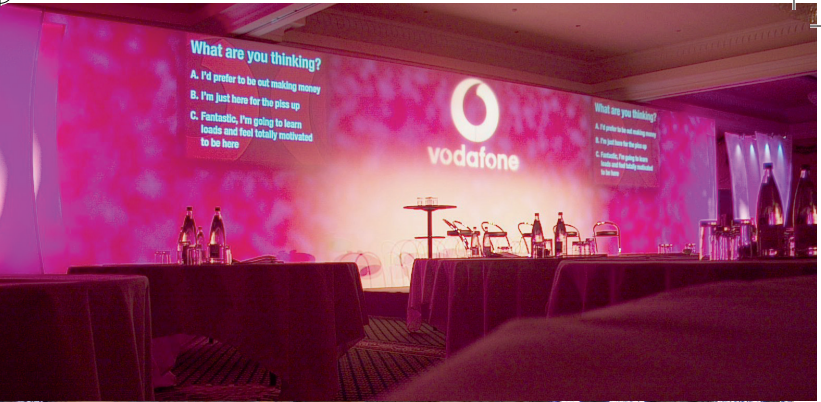

Our sails come with their own clamped foot.
